## LEVEL INDICATOR

# PFG571

Product Line: **Rotary**

Small sized rotary level indicator, specifically designed for use in plaster sprayer machines. Equipped with a large two-blade paddle, perfect for detecting light materials, and a 3-pole industrial socket (IP54).

### ADVANTAGES

- An **EASY TO INSTALL** instrument that does not require any calibration, maintenance or specific tool for its installation.
- A **COMPACT** indicator, suitable for the small plaster sprayer machines.
- Additional holes on the shaft allow to **ADAPT** the paddle position as necessary.
